

TMA CARD · Attractants

Descripción

The **TMA card** line is a practical and economical solution for non-prolonged periods of use in the field (45, 60 or 90 days).

The **TMA card** is a synthetic solution based on amines that act as food bait for the fruit fly (*Ceratitidis capitata*), mainly for the females of the species, for monitoring or control purposes, presenting the following advantages:

- ▶ It has great capture power
- ▶ It has high persistence in the field
- ▶ It is easy and clean to use
- ▶ It does not leave residues in fruits

Features

- ▶ Composition: Solution based on **aliphatic amines and ammonium salts**
- ▶ **Toxicity: Low**
- ▶ **Lifespan** (depending on weather conditions):
 - TMA 45 45 days
 - TMA liquid 60 days
 - TMA card 90 days

Packaging

Box containing 500 units in hermetic reusable sachets; each sachet has 25 units.

Usage

Place the product inside McPhail or Multitrap Traps or TDE Insect Screens and place it in the sunniest part of the tree at a height of 1.5 to 2.0 meters. It is advisable to keep a distance of about 15 meters between the traps. For massive trapping, use a minimum density of 50 traps per hectare.

TMA Card or 45: To be used in dry or liquid consistency in traps.

- Cut the sachet at one of its corners.
- Place the sachet next to the vapona (dry trap) or in 200 cc. of water (wet trap).
- Hang the trap.

TMA liquid: To be used in liquid consistency.

- Mix the contents of the sachet with 200 cc. of water inside the trap.
- Hang the trap.

Preservation

It is recommended to store them in the original sachets in a cool and dry place, avoiding direct exposure to sunlight.

Safety Regulations

Keep out of reach of children and inexperienced people. Handle with gloves. Wash the exposed surface with plenty of soap and water. If ingested, you should induce vomiting and seek medical advice immediately.

Warnings

Avoid product spillages in order to prevent attraction areas outside the trap. Confer with an agricultural science professional before purchasing and using this product.
