

STICKY COLOURED TRAPS

Description

Plastic boards covered with high-quality adhesive on both sides with counting grid to capture small insects (whitefly, thrips, aphids, *Liriomyza* spp, *Diaphorina citri*, Sciarids, Psyllids, sawfly).

Features

- ▶ Material: Plastic
- ▶ Colour: Yellow or blue
- ▶ Size: 25 cm x 20 cm | 25 cm x 10 cm. Others > **Contact us**

Usage

The boards should begin to be used when there is the presence of 1 or more adults per plant or when initial bites are observed on the cotyledonal and true leaves. The boards should be distributed in a zig-zag way in the crop field, using an average of 35 to 40 boards per hectare, depending on the population to be controlled.

Preservation

Store in a cool and dry place, avoiding exposure to sunlight.
